LOCATIONS INCLUDE:
Iraq; Budapest, Hungary; Asmara, Africa, Egypt, Libya, Switzerland; Angilla; Caicos Islands

EXECUTIVE & RETAINED SEARCH

An advanced search and selection process enables us to partner with our client. Each search and selection process is tailored to fit each individual client requirements, providing the highest level of services. Retained search is appropriate for all staffing levels where the need is significant and timing is critical

CONTAINER SEARCH

A container search approach allows you the benefit of engaging our services with custom tailored research and review similar to a retained search with an initial deposit paid up front to engage our services and the balance paid upon the candidate being hired by the client. Both parties assume and commit to engage in search efforts.

CONTINGENCY SEARCH

The contingency search option is suited for situations that may be a lower priority where timing is not a critical factor. The contingency option is designed for clients that desire basic search and candidate review. With a contingency search the client maintains more responsibility for candidate assessment and selection. Exclusivity of candidates is not guaranteed.

TIME & MATERIALS SEARCH

Time and materials basis billed at a rate of \$250 per hour or a non-refundable deposit to cover initial costs at the start of the search.
